# TRY A NEW TWIST ON NAVY

Color whisperer Anthony Baratta suggests stretching your sea legs by riffing on the trusty shade and netting new color combos, plus finish and fabric pairings

## ROYAL BLUE/PEACH/SAND

*Elements Fabric in Couch Reverse Perennials by Porter Teleo*

“What a totally groovy living room this would be, and a great twist on red, white, and blue. It’s relaxed and energetic at the same time.”

## OCEAN/MINT/LIGHT GRAY

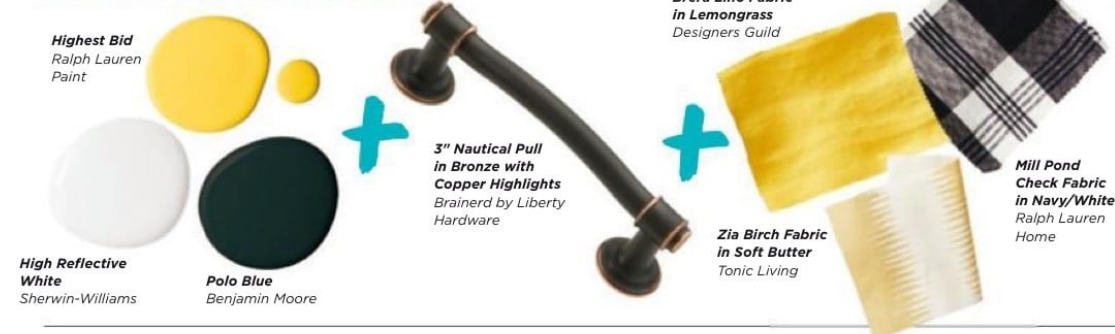

“This combo is as right tomorrow as it was yesterday. I would use it in a master bedroom. It’s just the right mix of masculine and feminine.”

## INDIGO/GREEN/RED-ORANGE

“This would be a fun breakfast room palette, with green walls and high-gloss navy trim—and a killer coral chandelier above the table!”

## BLACK SEA/YELLOW/WHITE

“This is my go-to! Finding the right shade of yellow can be intimidating, but just remember: True nautical yellow is sunny and happy.”
