# Pretty Persimmon

The colors of fall look great inside, too. Add a dose of harvest with these spicy oranges.

## COLORADO PEACH

**DE5236** This rusty shade brings warmth to walls. It's best in a room with lots of natural light. Break up the color with strong wall art and accessories on white shelving. [dunnedwards.com](http://dunnedwards.com)

## AUGUST MORNING

**2156-40** High-style entry: Douse walls in this shade, paint the trim white, and finish with rich walnut accessories. [benjaminmoore.com](http://benjaminmoore.com)

## CARMELIZED ORANGE

**122-7** Energize your dining room with a vibrant accent wall. Pair it with grays and navy for a look that's fresh year-round. [pittsburghpaints.com](http://pittsburghpaints.com)

## CLARIFIED BUTTER

**3001-6B** This soft, livable wall color casts a peachy glow and sets the stage for bold orange accessories. [valspar.com](http://valspar.com)

## SEWING BEE

**B1-4** A quasi neutral, this shade is a pretty accent to deep, dark blues (try Hague Blue by Farrow & Ball). Work it in with pillows and poufs. [dutchboy.com](http://dutchboy.com)
